#### Independent Auditor's Report

The Honorable Berline Sonnier, Mayor, and Members of the Board of Alderman Town of Basile, Louisiana

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Basile, Louisiana, as of and for the year ended June 30, 2005, which collectively comprise the basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Basile, Louisiana's management. Our responsibility is to express an opinion of these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Basile, Louisiana, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated August 23, 2005, on our consideration of the Town of Basile, Louisiana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in conjunction with this report in considering the results of our audit.

The Town of Basile, Louisiana has not presented management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Town of Basile, Louisiana's basic financial statements. The other supplementary information on pages 31 through 49 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information, except for the portion marked (unaudited) on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The prior year comparative information has been derived from the Town of Basile 2005 financial statements and, in our report dated August 26, 2004, we expressed unqualified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information.

Net increase (decrease)	<u>\$ 3,461</u>	<u>\$ (59,560</u> )

#### TOWN OF BASILE, LOUISIANA Notes to Financial Statements

#### (1) Summary of Significant Accounting Policies

The Town of Basile, located in southwest Louisiana, was incorporated on March 10, 1991, under the provisions of the Lawrason Act. The town operates under a Mayor-Board of Aldermen form of government which are five Alderman and one Mayor elected by the citizens and are compensated for their services. The town has a population of approximately 2000 and has 48 employees. Basile is located in southwest Louisiana.

The accounting and reporting practices of the Town of Basile conform to generally accepted accounting principles of the United States of America as applicable to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions on or before November 30, 1989 have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the industry audit guide, Audits of State and Local Governmental Units, published by the American Institute of Certified Public Accountants.

The following is a summary of certain significant accounting policies:

#### A. Financial reporting Entity

This report includes all funds which are controlled by or dependent on the town executive and legislative branches (the Mayor and Board of Alderman). Control by or dependence on the Town was determined on the basis of financial accountability, budget adoption, taxing authority, authority to issue debt, election or appointment of governing body, and other general oversight responsibility. The town has no component units or fiduciary funds.

#### B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The statement of net assets and statement of activities display information about the Town of Basile, the primary government, as a whole. They include all funds of the reporting entity. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of activities presents a comparison between direct expenses and program revenues for the business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs, and (b) requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

#### Fund Financial Statements

The accounts of the Town of Basile are organized on the basis of funds each of which is considered a separate accounting entity. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses as appropriate.

Government resources are allocated to and accounted for in individual funds based upon the purposes for which spending activities are controlled. The various funds are grouped in the financial statements in this report, into four generic fund types and two broad fund categories. The emphasis on fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined

The major funds of the Town are described below:

Governmental Funds -

General Fund

The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specific purposes.

Additionally, the Town reports the following fund types:

Debt Service Funds

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Proprietary Fund

Enterprise Fund

The Enterprise Fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis to be financed or recovered primarily through user charges; or (b) where the governing body has decided the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The Town of Basile's enterprise fund is the utility fund. It accounts for the provision of water, gas, and sewer services to residents of the Town.

Proprietary funds are reported in accordance with GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and other Governmental Entities that use Proprietary Fund Accounting. This standard requires that all applicable GASB pronouncements, Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARBs) issued on or before November 30, 1989 be applied to proprietary activities unless they (FASB Statements and Interpretations, ARB Opinions, and ARBs) conflict with or contradict GASB pronouncements.

GASB Statement No. 20 also states that for proprietary activities management may elect to apply all FASB Statement and Interpretations issued after November 30, 1989, except for those that conflict with or contradict GASB pronouncements. Proprietary activities under control of the City will not elect to apply FASB Statements and Interpretations issued after November 30, 1989, unless they are adopted by GASB.

#### C. Measurement Focus/Basis of Accounting

Measurement focus is term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

#### Measurement Focus

On the government-wide statement of net assets and the statement of activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined in item b. below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets

#### Basis of Accounting

In the government-wide statement of net assets and statement of activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Sales taxes are considered "measurable" when collected by the collection agency and are recognized as revenue at that time. Ad valorem taxes are recognized as revenue in the year in which they are billed. Fees and non tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Available means collectible within the current period or soon enough thereafter to pay current liabilities, usually 60 days.

Those revenues susceptible to accrual are property taxes, grant revenues and interest revenue.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred except that accumulated unpaid vacation and sick pay are not accrued and principal and interest on general long-term debt are recognized when due. Purchases of various operating supplies are regarded as expenditures at the time purchased.

The proprietary fund is accounted for using the accrual basis of accounting, whereby revenues are recognized when they are earned and expenses are recognized when incurred.

Bad debts are written off when accounts became worthless.

Transfers between funds that are not expected to be repaid are accounted for as other financing sources (uses). These transactions are recorded when the transfers occur.

#### Program revenues

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the Town's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the Town's general revenues.

#### Allocation of indirect expenses

The Town reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions, but are reported separately in the Statement of Activities. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

#### D. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Town has elected not to capitalize public domain ("infrastructure") fixed assets consisting of certain improvements other than buildings, including roads, bridges, sidewalks, and drainage improvements, retroactively. All capital assets are stated at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are stated at their estimated fair value on the date donated. Estimated amounts are immaterial in relation to total fixed assets. The town maintains a threshold level of \$5,000 or more for capitalizing capital assets.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	40 years
Equipment	5 years
Vehicles	7 years
Utility system and improvements	25-50 years

#### E. <u>Budgets and Budgetary Accounting</u>

The Town follows these procedures in establishing the budgetary data reflected in these financial statements:

- 1. The Town Clerk prepares a proposed budget and submits same to Mayor and Board of Aldermen no later than fifteen days prior to the beginning of each fiscal year.
- 2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.
- 3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
- 4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of a resolution prior to the commencement of the fiscal year for which the budget is being adopted.
- 5. Budgetary amendments involving the transfer of funds from one department, program or function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated require the approval of the Board of Aldermen.
- 6. All budgetary appropriations lapse at the end of each fiscal year.
- 7. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles of the United States of America. Budgeted amounts are as originally adopted or as amended from time to time by the Board of Aldermen. The budget was amended prior to the fiscal year and June 30, 2005.

#### F. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the Town as an extension of formal budgetary integration in the funds.

#### G. Cash and Cash Equivalents

Cash includes amounts in demand deposit, interest – bearing demand, and time deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less when purchased. Under state law, the municipality may deposit funds in demand deposits, interest – bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

#### H. Interest-bearing Deposits

Interest-bearing deposits are stated at cost, which approximates market.

#### I. Statement of Cash Flows

For purposes of the statement of cash flows, the Enterprise Fund considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

#### J. Short Term Interfund Receivables / Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as due from other funds or due to other funds on the balance sheet. Short-term interfund loans are classified as interfund receivables/payables.

#### K. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2005, are recorded as prepaid items.

#### L. Vacation and Sick Leave

The costs of leave privileges, computed in accordance with GASB Codification, is recognized as a current year expenditure in the governmental funds when leave is actually taken or when employees (or heirs) are paid for accrued leave upon retirement or death, while the cost of leave privileges not requiring current resources is recorded in the government-wide financial statements.

Vacation must be taken in the year accrued and cannot be carried over. A maximum of three weeks of sick leave may be carried over for one year and is payable at retirement of employee only. The liability the Town might have in this regard at June 30, 2005, totals \$9,052.

#### M. Restricted Assets

Restricted assets include cash and interest-bearing deposits of the proprietary fund that are legally restricted as to their use. The restricted assets are related to the revenue bond accounts and utility meter deposits.

#### N. Long-term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term debt consists primarily of the revenue bonds payable and utility meter deposits payable.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary fund long-term debt is the same in the fund statements as it is in the government-wide statements.

#### O. Equity Classifications

In the government-wide statements, equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets Consist of net assets with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government-wide statements. The towns policy is to first apply unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

#### P. Revenues, Expenditures, and Expenses

#### Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities

#### Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

Governmental Funds – By Character: Proprietary Fund – By Operating and Nonoperating

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources.

#### Interfund Transfers

Permanent reallocations of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

#### Q. <u>Capitalization of Interest Expense</u>

It is the policy of the Town of Basile to capitalize material amounts of interest resulting from borrowing in the course of the construction of fixed assets. At June 30, 2005 the amount of interest capitalized for construction of assets in the Utility Fund totaled zero.

#### R. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. The allowance for doubtful accounts in the utility fund is estimated at \$ 0 since each account has a security deposit.

#### (2) Deposits with Financial Institutions

Under state law, the town may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Town may invest in certificates and time deposits of state banks organized under the Louisiana law and national banks having principal offices in Louisiana. At June 30, 2005, the Town has cash and interest bearing deposits totaling, \$ 321,995 as follows:

Demand deposits	\$ 301,995
Certificate of deposit	_20,000
Total	\$ <u>321, 995</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balance) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balance) at June 30, 2005, are secured as follows.

Bank balances	<u>\$_325,438</u>
Federal deposit insurance	\$ 100,000
Pledged securities (Category 3)	<u>320,342</u>
Total	420,342
Excess	<u>\$ 94,904</u>

Pledged securities in Category 3 includes uninsured or unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent, but not in the Town's name. Even though the pledged securities are considered uncollateralized (Category 3) Louisiana Revised Statue 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Town that the fiscal agent has failed to pay deposited funds upon demand.

#### (3) Ad Valorem Taxes

Ad Valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied by the Town in September or October and are actually billed to the taxpayers in November or December. Billed taxes become delinquent on January 1, of the following year. Revenues from ad valorem taxes are budgeted in the year billed. The Town bills and collects its own property taxes using the assessed values determined by the tax assessor of Evangeline Parish. Most taxes are collected by February of the ensuring year.

For the year ended June 30, 2005, taxes of 14.49 mills were levied on property with assessed valuations totaling \$4,716,990 and were dedicated to general corporate purposes.

Total taxes levied were \$69,886. Taxes receivable at June 30, 2005, were \$4 and allowances for uncollectibles were \$0.

#### (4) Restricted Assets General And Proprietary Fund Type

Restricted Assets were applicable to the following at June 30, 2005.

	_2005_
Proprietary Fund:	
Utility Deposits - Time Certificate of Deposit	\$ 20,000
Revenue Bond Contingency Account – cash	41,450
Water Reserve Fund	28,582
Water Depreciation & Contingency	23,024
Gas Contingency Fund	27,589
Total restricted assets	<u>\$140,645</u>

#### (5) Capital Assets

Capital asset activity for the year ended June 30, 2005 was as follows:

#### (6) Changes in Long-Term Debt

Total depreciation expense

The following is a summary of debt transactions in the proprietary fund of the Town of Basile, Louisiana for the year ended June 30, 2005:

	Payable at July 1, 2004	Additions	<u>Retirements</u>	Payable at June 30, 2005
Revenue bonds	<u>\$ 857,507</u>	\$ -0	<u>\$ 13,274</u>	<u>\$ 844,233</u>

Bonds payable at June 30, 2005, is comprised of the following individual issues:

#### Revenue bonds:

\$670,000 Water Revenue Bonds dated 3/27/95; due in monthly installments of \$3,044.52, which includes interest through March 27, 2035; interest at 4 1/2% per annum	\$ 597,824
\$276,400 Water Revenue Bonds dated 3/27/95; due in monthly installments of \$1,254.86, which include interest through March 27, 2035; interest at 4 1/2% per annum	246,409
Total Bonds Payable	<u>\$ 844,233</u>
Less Current Portion	(13,886)
Net Bonds Payable	<u>\$ 830,347</u>

Interest expense totaled \$38,319 and is included in business type activities as a water department expense.

The annual requirements to amortize all debt outstanding as of June 30, 2005, including interest payments of \$687,099, are as follows:

Year Ending		Principal	Interest
June 30	<u>Total</u>	<u>Payments</u>	<u>Payments</u>
2006	\$ 51,593	\$ 13,886	\$ 37,707
2007	51,593	14,524	37,069
2008	51,593	15,191	36,402
2009	51,593	15,889	35,704
2010	51,593	16,619	34,974
2011 - 2015	257,965	95,275	162,690
2016 - 2020	257,965	119,265	138,700
2021 - 2025	257,965	149,295	108,670
2026 - 2030	257,965	186,887	71,078
2031 - 2035	<u>241,507</u>	217,402	24,105
	<b>\$1,531,332</b>	\$844,233	\$687,099

#### (7) <u>Dedication of Proceeds and Flow of Funds</u>

#### A. Dedication of Proceeds and Flow of Funds – 1% Sales and Use Tax Dated 7/21/80

Proceeds of this 1% sales and use tax levied by the Town of Basile (2004 - 2005 collections - \$86,492) are dedicated for any lawful corporate expenditures, including the funding into bonds.

#### B. <u>Dedication of Proceeds and Flow of Funds – 1% Sales and Use Tax Dated 4/12/75</u>

Proceeds of this 1% sales and use tax levied by the Town of Basile (2004 - 2005 collections \$86,493;) are dedicated to the following purposes:

Constructing, acquiring, extending, improving, and/or maintaining drainage facilities, streets, street lighting facilities, bridges, sidewalks, waterworks, sewers and sewerage disposal works, recreational facilities, public parks, public buildings and fire department stations and equipment, including fire engines and payment of salaries for fire department personnel; and maintaining and operating the municipal police department and garbage collection and disposal facilities, including the purchase of equipment therefore; acquiring industrial plant sites and purchasing or constructing within the municipality or adjoining areas or areas outside of the corporate limits of the municipality, but within the Parish of Evangeline, industrial plant buildings and other necessary property, appurtenances or equipment, therefore, or for any one or more of said purposes; and such tax to be subject to funding into bonds.

#### (8) Flow of Funds; Restrictions on Use – Utilities Revenues

Water Utility Bonds:

Under the terms of the bond indenture on outstanding Water Utility Bonds, dated March 27, 1995, all income and revenues (hereinafter referred to as revenue) of every nature, earned or derived from operation of the Utility System are pledged and dedicated to the retirement of said bonds, and are to be set aside into the following special funds:

Out of the revenue there shall be set aside from time to time into an Operation and Maintenance Fund, amounts sufficient to provide for the payment of the reasonable and necessary expense of operating and maintaining the system.

Each month, there will be set aside into a fund called the Water Revenue Bond and Interest (Sinking) Fund, an amount constituting 1/12 of the next maturing installment of principal and Interest on the outstanding bonds. Such transfers shall be fully sufficient to assure the prompt payment of principal and interest installments as they become due, and may be used only for such payments. The Town pays this directly to RECD monthly.

There shall be also set aside into a Bond Reserve Fund, an amount of \$215 per month until there shall have been accumulated in the Reserve Account an amount equal to the maximum principal and interest requirements in any one maturity year. Such amounts may be used only for the payments of maturing bonds and interest coupons for which sufficient funds are not on deposit in the Bond and Interest Sinking Fund and as to which there would otherwise be default.

Funds will also be set aside into a Depreciation and Contingency Fund at the rate of \$458 per month. Money in this fund may be used for the making of extensions, additions, improvements, renewals, and replacements to the system which are necessary to keep the system in operating condition and for which money is not available as a maintenance and operating expense. Money in this fund may also be used to pay principal or interest on the bonds falling due at any time there is not sufficient money for payment in the other bond funds.

All of the revenues received in any fiscal year and not required to be paid in such fiscal year into any of the above noted funds shall be regarded as surplus and may be used for any lawful corporate purpose.

The Town of Basile was in compliance with all significant limitations and restrictions for this bond indenture at June 30, 2005.

#### (9) <u>Utility Customer Deposits</u>

The accounts of the Town include a liability for utility customer deposits of \$71,875. As of June 30, 2005, the Town has a certificate of deposit with a balance of \$20,000 specifically set aside for customer meter deposits.

#### (10) Employee Retirement

All employees of the Town of Basile belong to the Social Security Retirement System. The Town and its employees contribute a percentage of each employee's salary to the System (7.65% contributed by the Town, 7.65% by the employee). The Town's contribution during the year ended June 30, 2005, amounted to \$37,751.

#### Municipal Employee's Retirement System

Substantially all full-time employees except police of the Town of Basile are eligible to be covered under the Municipal Employee's Retirement System of Louisiana (Plan B), a multiple-employer, Public Employee Retirement System (PERS), controlled and administered by a separate board of trustees. The payroll for employees of the Town of Basile, Louisiana by the System for the year ended June 30, 2005, was \$155,750. The town's total payroll was \$473,375.

All permanent employees working at least 35 hours per week who are not covered by another pension plan and are paid wholly or in part from municipal funds and all elected municipal officials are eligible to participate in the System. Under Plan B., employees who retire at or after age 60 with at least 10 years of creditable service or at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 2 percent of their final-average monthly salary for each year of creditable service. Furthermore, employees with at least 10 years of creditable service, but less than 30 years, may take early retirement benefits commencing at or after age 60, with the basic benefit reduced 3 percent for each year retirement precedes age 60, unless he has at least 30 years of creditable service. In any case, monthly retirement benefits paid under Plan B cannot exceed 100 percent of final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Municipal Employees Retirement System of Louisiana, 7937 Office Park Boulevard, Baton Rouge, Louisiana, 70809, or by calling (225) 925-4810.

Funding Policy. Under Plan B, members are required by state statute to contribute 5.0 percent of their annual covered salary and the Town of Basile is required to contribute at an actuarially determined rate. The current rate is 7.75 percent of annual covered payroll. Contributions to the System also include one-fourth of one percent (except Orleans and East Baton Rouge Parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the Town of Basile are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Town of Basile's contributions to the System under Plan B for the year ended June 30, 2005 was \$14,819 equal to the required contributions for each year.

#### (11) Natural Gas Contract

The Town of Basile, under contract is required to purchase its natural gas from Louisiana Mutual Gas Corporation unless or until terminated either by seller or buyer upon twelve months prior written notice. The Town purchased natural gas for the year ended June 30, 2005 in the amount of \$194,843 of which \$8,845 was owed for purchases for the month of June 30, 2005.

#### (12) Segment Information for the Enterprise Fund

The Town of Basile maintains one Enterprise fund with three departments which provide gas, water, and sewer services. Segment information for the year ended June 30, 2005, was as follows:

				Total
	Gas	Water	Sewer	Enterprise
	<u>Department</u>	<u>Department</u>	<u>Department</u>	<u>Fund</u>
Operating revenues	\$440,893	\$334,963	\$ 181,830	\$ 957,686
Operating expenses	<u>276,524</u>	203,304	<u>188,276</u>	668,104
Operating income	<u>\$ 164,369</u>	<u>\$ 131,659</u>	<u>\$ (6,446)</u>	<u>\$ 289,582</u>

#### (13) <u>Compensation of Town Officials</u>

A detail of compensation paid to the mayor and Board of Alderman for the year ended June 30, 2005, follows:

Berline Boone Sonnier, Mayor	\$ 18,000
Aldermen:	
Frank Ceasar	3,100
Jessica G. Denette	3,100
Rodney Bellon	3,100
John Jenkins	3,050
Ronnie Denette	<u>3,050</u>
	<u>\$ 33,400</u>

#### (14) <u>Federally Assisted Funds</u>

The town participated in a number of federally assisted programs. These programs are audited in accordance with Government Auditing Standards.

#### (15) Operating Lease

The town has entered into an operating lease which contains cancellation provisions and are subject to annual appropriations. The operating lease entered into was for the use of a copy machine for the general operations of the town. The terms of the lease call for 60 monthly payments of \$231 beginning November 4, 1999. Lease expense totaled \$693 for the year ended June 30, 2005. The lease expired during this fiscal year.

#### (16) Concentration of Risks

Concentration of risks with respect the town is subject to the conditions of the limited geographical area of the town.

#### (17) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### (18) Capital Lease

#### General Fund:

The town is currently obligated under capital lease agreements for computer equipment for the police department. The terms of the lease call for three annual payments of \$579 beginning May 20, 2005. Lease expense totaled \$1,157 for the year ended June 30, 2005. Future minimum lease payments are as follows:

Year ended June 30,	<u>Amount</u>
2006	\$ 570

#### Utility Fund:

The town is currently obligated under capital lease agreements for computer equipment. The terms of the lease call for 36 monthly payments of \$253 beginning November 19, 2003. Lease expense totaled \$2,919 for the year ended June 30, 2005. Future minimum lease payments are as follows:

Year ended	
June 30,	Amount
2006	\$ 2,871

#### (19) Interfund Activities

Transfers to/from other funds at June 30, 2005, consist of the following:

	From the General Fund to the Debt Service Fund for operations	\$		140
	From the Utility Fund to the General Fund for operations	4	14,	191
	From the Sales Tax Fund to the General Fund	10	07,	000
	From the Sales Tax Fund to the Utility Fund for operations		58,	000
Total		<u>\$.5</u>	79,	331

In general, transfers are used to (1) move revenues from the fund that collects the money to the fund that expends the money, (2) move receipts restricted or earmarked for debt services from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in a fund to provide operating advances to other funds in accordance with budgetary authorizations.

Report on Compliance and Other Matters and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Honorable Berline Boone Sonnier and Members of the Board of Alderman Town of Basile, Louisiana

We have audited the financial statements of the governmental activities, the business type activities, each major fund, and the aggregate fund information of the Town of Basile as of and for the year ended June 30, 2005, which collectively comprise the Town of Basile's basic financial statements and have issued our report thereon dated August 23, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Basile's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards which are described in the accompanying schedule of findings and questioned costs as item #2005-1, #2005-2.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town of Basile's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the Town of Basile's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items: #2005-1 and #2005-2.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe none of the reportable conditions described above is a material weakness.

This report is intended solely for the information and use of the Town Council, management and Legislative Auditor and is not intended to be and should not be used by anyone other than specified parties. Under Revised Statue 24:513, this report is distributed by the Legislative Auditor as a public document.

Vige & Tujague August 23, 2005

#### TOWN OF BASILE, LOUISIANA Schedule of Findings and Questioned Costs Year Ended June 30, 2005

We have audited the financial statements of Town of Basile as of and for the year ended June 30, 2005, and have issued our report thereon dated August 23, 2005. We conducted our audit in accordance with auditing standards generally accepted in the Untied States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our audit of the financial statements as of June 30, 2005, resulted in an unqualified opinion.

### TOWN OF BASILE, LOUISIANA Schedule of Findings and Questioned Costs (Continued)

### Section III. Summary of Other Audit Results

- 1. The auditor's report expresses an unqualified opinion of the financial statement of Town of Basile, Louisiana
- 2. There was no single audit required under OMB Circular A-133.
- 3. Town of Basile, Louisiana was considered a low risk auditee.

#### TOWN OF BASILE, LOUISIANA

#### Status of Prior Years Schedule of Findings and Questioned Costs Year Ended June 30, 2005

#### #2004-1 Segregation of Duties

Finding: Due to the small number of employees, the town did not have an adequate segregation of functions

within the accounting system.

Recommendation: Based upon the size of the operation and the cost-benefit of additional personnel, it may not be

feasible to achieve complete segregation of duties.

Response: No response is considered necessary.

Status: No response required.

#2004-2 Budgeting

Finding: The Town exceeded certain budget line items by greater than 5%.

Recommendation: We recommend that all year end adjustments be posted or estimated as correctly as possible to

ensure that this is not a reoccurring problem.

Response: The Town will comply with this recommendation.

Status: This finding was repeated for June 30, 2005.

VIGE AND TUJAGUE, CPA'S P. O. BOX 1005 EUNICE, LA 70535

RE: Management Response

The following are our responses to your recommendations we received in the Town's Audited Financial Statement as of June 30, 2005.

2005-1 Segregation of Duties

We are aware of and have evaluated this inadequacy and concluded that the related costs vs benefits to be achieved does not justify the additional personnel it would require to establish an adequate segregation of duties. However, we will try to segregate duties as mush as possible with the existing staff.

2005-2 Budgeting

In the future we will take greater care in adjusting our financial statements at year end in order to properly amend the budget to not vary from actual amounts by greater than 5%.
